

Taq 酶抗体（单克隆）

Monoclonal antibody for hot start PCR :anti-Taq DNA polymerase

Storage:-20℃

Price: ¥ 300.00

Size:100ul

(for 500units of Taq DNA polymerase)

Source:mouse hybridoma

Concentration:1.0mg/ml

Storage Buffer:10mMTris-Hcl(PH:7.0)

50mMKCl

50%Glycerol

10×PCR Buffer:100mM Tris-Hcl

15mMMgCl₂

500mMKCl

Quality Control

1. Inhibition Activity:When 1.0ug of this antibody were added to 5 unit of rTaq DNA polymerase,99.7% of DNA polymerase activity was suppressed at 40℃.
2. No visible band of 250bp mouse L1 repeat DNA was observed after 40 cyclers of PCR using 10ug of this antibody.
